### Lecture 1

Introduction

Done by :

Razan fawwaz

# lecture (1)

---

1. Trolley problem:

A- ethical theory

B- applied

C- motor car...

Answer:

2. Aly's son has vaccinated for MMR, he has a baby and will be vaccinated, although the vaccine causes fever, itching and side effects at the time of giving, but he considers that it's beneficial to protect, it's called

A- utilitarian theory

B- deontological theory

C- Virtue theory

Answer: A

3. Patient's body:

A- Privacy

4. Hiding, falsifying, or manipulating the information is

A- unethically and illegally

5. Smoking is morally wrong, then the moral person should not do it:

A- Virtue-based ethics

## lecture (1)

---

6- Medical ethics is learned by observing how senior physicians act not from books or lectures:

A-FALSE

B- true

Answer:A

7- may sacrifice the rights of the minority for the sake of the happiness of the majority?

Utilitarian theory

8- conditions should be fulfilled to obtain correct autonomy except

A. Capacity

B. Disclosure

C. Voluntariness

D. Fear

ANSWER D

9. autonomy, non-maleficence, justice, beneficence?

Principles of medical ethics

10. Principle states that any competent person should be given the freedom to decide on any decision that is related to its health ?

AUTONOMY

## lecture (1)

---

12. A professional secrecy is :

- A. privacy
- B. confidentiality
- C. autonomy
- D. non-maleficence

Answer :B

13. Regarding the deontological theory, all of the following are false except:

- A. Looks to ones obligation to determine what is ethical.

Ethical Responsibility of physicians

Done by :

Razan fawwaz

## lecture (2)

---

1. Dr. A have diagnosed patient and give him a treatment, the patient go to Dr. B, and he criticize Dr. A and give the patient other treatment, Dr. B more specialised then Dr. A, Dr. B behaviour is

A- wrong because he criticize his colleagues

B- right because Dr. B junior

C- all above true

Answer: A

2. On of the following is duty the physician toward community:

A- request MRI or CT scan for every patient

B- effective contributions to the development of polices

Answer: B

3. Abandonment?

A- unilateral severance of the professional relationship without reasonable notice at a time when there is still the necessity of continuing medical attention result in civil liability for the physician

B- being honest, correct and accurate in his work

Answer A

## lecture (2)

---

4. On his round, the well-known surgeon Mr. Butcher was always keen to have all the residents and interns on his unit in attendance, in addition to other health care team members (dietician, physiotherapist, nurses, and others) to whom he always referred as the "paramedics." During the round, he asked one of his unit's female interns to examine a 65-year-old male patient who had had his prostate removed two days before. He asked her in a loud voice. Both the intern and the patient felt embarrassed. The surgeon stopped her when she tried to pull the curtains, as there were few other patients next to this patient who would see him being examined if the Curtains were not pulled. He said, "Nothing to be ashamed of. He is a patient in a teaching hospital so he expects that you will all examine him," then, "isn't that right Mr. X?" talking to the patient. the doctor make mistake in tight of how?

- A-patient
- B-patient & colleges
- C-Colleges
- D-Student
- E-Hospital

Answer:B

## lecture (2)

---

5 .All of these are duties of physicians towards his profession except:

A-not reveal the patient's secrets

B-He should be honest, accurate and correct in writing any medical report or certificate.

C-He should be reasonable in his financial relation with patients according to the fees put by the medical syndicate

Answer A

6- the unilateral severance of the professional relationship without reasonable notice?

A-Malpractice

B-ABANDONMENT

C-physician-patient relationship

Answer B

7 - duties of physicians towards the community except?

A-Positive interaction with the community's affairs

B-Protect the community by reporting reportable/epidemic diseases

### Lecture 4

Medical confidentiality  
(professional secrecy)

Done by :

Razan fawwaz

## lecture (4)

---

1- Regarding the child abuse, there are four types represent it, except :

- A. neglect
- B. psychological
- C. Emotional
- D. Sexual
- E. Physical

Answer: B

2 - Which of the following information of patients should be kept pervate:

- A. All demographic, clinical, and financial information
- B. Only clinical and demographic information
- C. Only clinical data
- d. Demographic data
- E. Only Financial data

Answer: A

## lecture (4)

---

3- The term confidentially used to define?

- a Professional secrecy
- b. Malpractice
- c. Equality with ever yone
- d. Paternatism
- e. Preventing harm

Answer :a

4 -Regarding the child abuse, there are four types represent it, except:

- A. neglect
- B. psychological
- C. Emotional
- D. Sexual
- E. Physical

Answer: B

5. All of the following are conditions to revealing secrets exept:

- A- pre embolye
- B- fanincal company
- C public intrestAA
- D- communicable
- E- consulting

Answer:

## lecture (4)

---

6 .another person (nurse) of the same gender as the patient present throughout any examination?

A-protect patients' privacy

B-proper clothing

C-isolation

Answer A

7 .All about confidentiality except

A-Respects patient's autonomy

B-Protects from social embarrassment

C-Paternalism

Answer:C

## lecture (4)

### Lecture 5

Done by :

ليان طرخان

## lecture (5)

---

1. A physician should not do the following except?

- A. Receive any financial benefits or gifts for referring patients or prescribing specific products.
- B. Use his patients as experimental tools at all.
- C. Hesitate in consulting another physician in difficult cases.
- Refuse treatment of emergency cases.
- E. Try to end the life of his patient by any means.

Answer: B

2) Maltreatment of human subjects in Nazi experiments led to the development of:

- ☐ a. Medical ethics codes.
- ☐ b. World Medical Association code
- ☐ c. Declaration of Helsinki.
- ☐ d. Nuremberg Code.
- ☐ e. Stoppage experiment on human subject.

Ans: d

3. research ethical committee approval is taken:

- ☐ a. After the research has been finished.
- ☐ b. Before the final revision of the research
- ☐ c. Before starting the experiment.
- ☐ d. Before publication.
- ☐ e. During the research study.

Ans: c

## lecture (5)

---

4) Dr A is following up a patient. The patient did not feel that she is getting better, so she decided to visit another physician (Dr B). Dr B criticized all the steps done by Dr A. Dr B being more experienced than Dr A, wrote the correct treatment for the case. The behavior of Dr B is ethically:

- ☐ a. Unacceptable as Dr A is young less expert colleague.
- ☐ b. Unacceptable, as it is unethical to criticize our colleagues
- ☐ c. Suitable as Dr A wrongly diagnosed the case.
- ☐ d. Satisfactory, as it is ethically to criticize our colleagues if they wrongly diagnosed the patient diseases.
- ☐ e. Appropriate as the main goal of physicians is patient health.

Ans:b

5. Research ethical committee approval is taken:

- ☐ a. After the research has been finished.
- ☐ b. Before the final revision of the research
- ☐ c. Before starting the experiment.
- ☐ d. Before publication.
- ☐ e. During the research study.

Ans:c

## lecture (5)

---

6. The followings are true regarding Nuremberg code except:

- O a. Voluntary withdrawal of the subject.
- O b. Experiment should be stopped if there is injury or disability of the subject.
- O c. Choose suitable animal species.
- O d. Beneficial results are expected.
- O e 10 guideline rules.

Ans:c

7. Maltreatment of human subjects in Nazi experiments led to the development of :

- a. Medical ethics codes.
- b. World Medical Association code
- c. Declaration of Helsinki.
- d. Nuremberg Code

Ans:d

8. A doctor wanted to try a new medicine. He started the experiment on animals and it gave a good effect and few side effects. In the second stage, he brought 50 children and tested the medicine on them. When the medicine was presented to the medicine committee, it was rejected. What is the reason?

- A ) he must try on animal first
- B ) he must start by adult
- C ) he use high number of childrens
- D ) must try on patient childrens
- E ) patient adults first

Answer: b

## lecture (5)

---

9. Mentally incompetent persons:

- ☐ a. Can't ethically participate in any research
- ☐ b. Can sign informed consent
- ☐ c. Can participate in clinical research according Nuremberg Code
- ☐ d. Were the primary subject of Willow-brook study
- ☐ e. Were non-vulnerable group

Ans:d

10. Research on hepatitis by Dr. Kru man at Willowbrook amon mentally retarded children:

viral hepatitis

11. historically first international guideline for human research:

- A) Nuremberg
- B) declaration of Helsinki

Ans:a

## lecture (5)

---

12) Which of the following descriptions of falsification is incorrect?

- ☐ a. Falsification occurs when researchers manipulate the research results to reach his aim the work
- ☐ b. Falsification occurs when a researcher enters random numbers for analysis to finish the research paper on time, because the submission deadline for a conference is approaching and there is no time to properly analyze the retrieved data.
- ☐ c. Falsification occurs when researchers modify their research data or equipment to verify the set research hypothesis.
- ☐ d. Falsification occurs when a researcher changes the analysis statistics to make them statistically significant and thereby support the research hypotheses.
- ☐ e. Falsification occurs when a researcher modifies or deletes research statistics, results, or graphs.

Ans: الله أعلم

## lecture (5)

---

13. A professional oncologist has noticed during his routine surgical management of cancer breast that there is a new easy technique may be useful for the outcome of the operation.

What should ethically the surgeon do:

- ☐ a. Begin to apply the new technique on patients that have cancer breast is mandatory.
- ☐ b. Discuss the new technique with other professionals.
- ☐ c. Begin this new technique in normal volunteer.
- ☐ d. No new techniques should be used at all.
- ☐ e. Follow the scientific steps in evaluating the new technique and publish his research in respectable journal.

Ans:e غالبًا

14. Which of the following is true about the use of animals in research?

- ☐ a. It is ethically not to sacrifice animals.
- ☐ b. Ethics are not a major issue because participants are not deceived.
- ☐ c. It must ensure that discomfort to animals is reduced as possible and harm only occurs where necessary.
- ☐ d. Because it is such a controversial topic, the issues it raises are only worth discussing in relation to medical research.
- ☐ e. No given answer is correct.

Ans;c

## lecture (5)

---

15. publication of a research can be done?

- O a. Twice in different volumes of the same journal
- O b. Twice in different journals
- O c. Once in a specialized journal
- O d. Any time as the author wishes to publish it again
- O e. Any time as the editors of journal wishes to publish it again

Ans;c

16. Research composed o (title,introduction,results ,re erences ... )One is missin :

- a)name o authors
- b)abstract

Ans;b

17. When you do a research and don't tell the patient about all the risk complications , here you are not actin by ;

- A)Ethically
- B)Le ally
- C)Unethically
- D)Ille ally
- E)Unethically + Illegally ally
- F)Ethically + Legally

Ans; e غالبًا e

## lecture (5)

---

18. sub-segment of the general public requiring maximum care and particular special protections in research:

\*VULNERABLE group

19. TURNITIN software used for?

- A) plagiarism detection
- B) Fabrication detection
- C) Falsification detection
- D) Grammar correction
- E) All correct

Ans; a

20. Turnitin is software which is used for :

Plagiarism

21. Areas of Academic misconduct except :

- A. Plagiarism
- B. Fabrication and falsification
- C. publication of data
- D. Faulty data- adhering procedures
- E. Poor data storage and retention Misleading authorship

Answer: c

22. Patients with public health threatening disease are quarantined for the sake of the good of the general public:

A- utilitarianism

## lecture (5)

---

Q23 )A female patient visited Dr A in his clinic. She was wearing indecent cloths (according to Dr A social moral standards). She suffered from disturbed conscious level. After measuring blood glucose level, he discovered that she suffered from severe hypoglycemia. He gave her the urgent treatment. On the second day, during discussion this situation, Dr A's friend (X) blamed him for managing such patient. Who is ethically behave in acceptable way?

- O a. A as this case is emergency.
- O b. X as physician could refuse treatment of any patient.
- O c. Both as true, as one should deal with patient according to his own believes
- . O d. A as he can treat any patient to increase his income.
- O e. X as he could refer her rapidly to a neighbor colleague.

Ans:a
