Lec 1

Preventive and therapeutics strategies when using cyclophosphamide include all of the following except:

- A. hydration
- B. bladder irrigation
- C. alkalinize urine
- D. prophylactic dosing of mesna

Ans: c

All of the following cause Acute tubular necrosis except:

- a. paracetamol
- B. NSAIDs
- C. cephalosporin
- D. allopurinol

Ans: D

Cause tubular acidosis:

- A. paracetamol
- B. phenformin
- C. acetazolamide
- D. Acyclovir

Ans: c

All the following correctly matched about medication and its preventive strategies except:

- A. ifosfamide >> mesna and N-acetylcysteine
- B. iodinated radiocontrast agents >> iv isotonic crystalloid hydration
- C. cisplatin >> sodium thiosulfate in high risk patients
- D. NSAIDs >> isotonic crystalloid hydration

Ans: d

26- Which of the following drugs causes hyperkalemia?

Select one:

- A- Hydrochlorothiazide**
- B- Indapamide**
- C- Spironolactone**
- D- Chlorothiazide**
- E- Furosemide**

Ans: c

26- Which of the following drugs causes hyperkalemia?

Select one:

- A- Hydrochlorothiazide**
- B- Indapamide**
- C- Spironolactone**
- D- Chlorothiazide**
- E- Furosemide**

28- All of the following drugs causes nephrotoxicity except?

Select one:

- A- Penicillin**
- B- NSAIDs including COX 2**
- C- Radio opaque contrast materials**
- D- Aminoglycosides**
- E- Calcium channel blockers**

Ans: e

1) Adverse effects resulting from the administration of Furosemide include all the following Except?

- a. Hypercalcemia**
- b. Hyperuricemia**
- c. Hypokalemia**
- d. Ototoxicity**
- e. Hypomagnesemia**

Ans:a

) The Thiazide diuretics have useful therapeutic effect in all of the following conditions except?

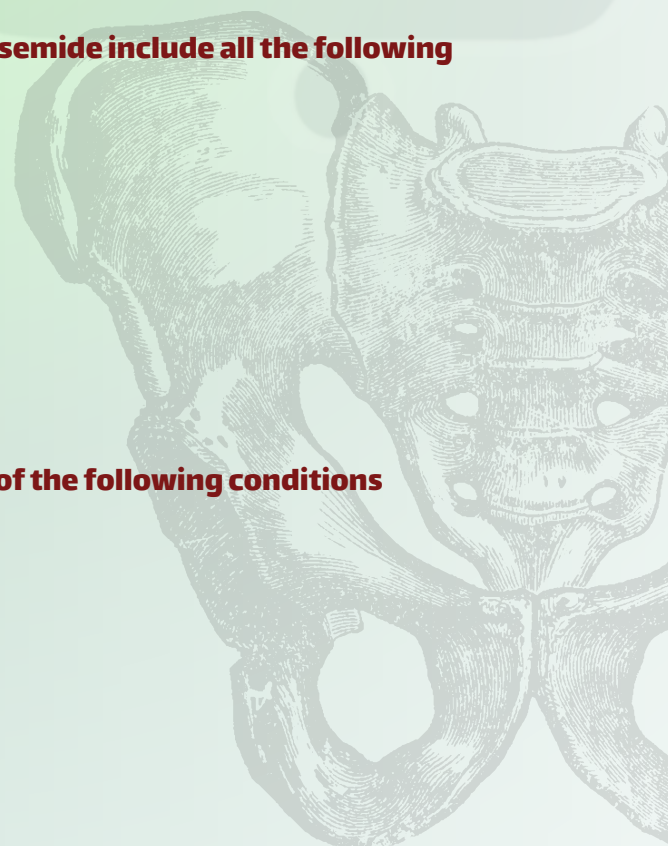

- a. Chronic edema associated with cardiac decompensation**
- b. ADH-secreting pulmonary tumors**
- C. Hypercalciuria**
- d. Diabetes insipidus**
- e. Hypertension**

Ans:b

Lec 2

المطب والجرافة

3) One of the following diuretics is safe to use in renal failure?

- a. Hydrochlorothiazide
- b. Acetazolamide
- c. Spironolactone
- d. Furosemide
- e. indapamide

Ans:E

4) Furosemide is useful for the treatment of all of the conditions except?

- a. Congestive heart failure
- b. Acute pulmonary edema
- c. Hypocalcemia
- d. Hypertensive crisis
- e. Edema resulting from hepatic and renal disease

ans: c

5) One of the following diuretics is useful for kidney stones?

- a. Hydrochlorothiazide
- b. Chlorthalidone
- c. Triamterene
- d. Spironolactone
- e. Furosemide

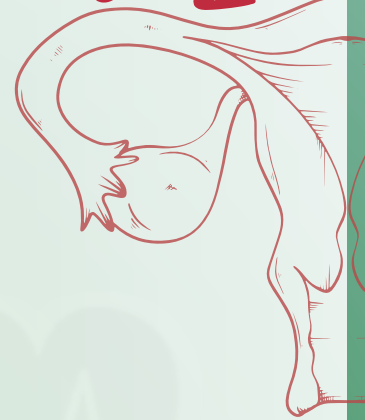

Ans:a

One of the following diuretics is useful for kidney stones?

- a. Hydrochlorothiazide
- b. Chlorthalidone
- c. Triamterene
- d. Spironolactone
- e. Furosemide

Ans: a

- Which of the following is aldosterone antagonist?

Select one:

- A- Spironolactone
- B- Chlorthalidone
- C- Indapamide
- D- Furosemide
- E- Torsemide

Ans: a

All of the followings are adverse effect of androgens in female except:

- A.masculinization
- B.acne
- C.growth of facial hair
- D.gynecomastia

Ans:d

Best drug to treat hirsutism in women is:

- A.spironolactone
- B.cyproterone acetate
- C.testosterone
- D.flutamide

Ans;b

17,a alkylated androgens associated with ;

- A.hepatotoxic adverse effect
- B.nephrotoxic adverse effect
- C.hormonal effect
- D.anabolic effect

Ans:a

Lec 3

lec 4-6

1) All following are Therapeutic uses of estrogens EXCEPT?

- a. Endometriosis
- b. Contraception
- c. Hormone replacement therapy (HRT)
- d. Estrogen deficiency
- e. Osteoporosis

ans: a

2) All following about contraceptives are true EXCEPT?

- a. Contraceptives prevent ovulation
- b. Combination pills are most effective method for contraception
- c. Triphasic pills contain constant dose of estrogen and progesterin
- d. Side effects: thrombophlebitis
- e. Contraindicated in patients with breast cancer

ans: c

3) Which of following about female sex hormones is FALSE

- a. Tamoxifen is used in metastatic breast cancer in postmenopausal women
- b. Raloxifene is used in treatment of osteoporosis in postmenopausal women
- c. Clomiphene is used in treatment of anovulatory infertility
- d. Medroxyprogesterone has androgenic activities
- e. Progestins are used in treatment of endometriosis

ans: d

4) All following are classes of contraceptives EXCEPT

- a. Estrogen- only pills
- b. Transdermal patch
- c. Vaginal ring
- d. Progestin-only pills
- e. Progestin intrauterine device

ans: a

5) All following are therapeutic indications of progestins EXCEPT?

- a. Contraception
- b. Osteoporosis
- c. Dysfunctional uterine bleeding
- d. Endometriosis
- e. Hormone replacement therapy

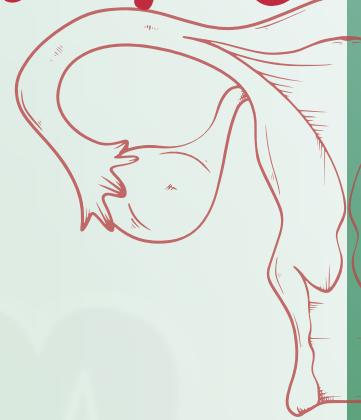

ans: b

6) All following about estrogens are true EXCEPT?

- a. Estrogen is used as second line in treatment of osteoporosis
- b. Natural estrogens are slowly metabolized in liver
- c. Synthetic estrogens have prolonged duration of action
- d. Estrogen side effect: deep vein thrombosis
- e. Estrogen can cause fluid retention

ans: b

Lec 4-6

7) All following about contraceptives are true EXCEPT?

- a. Progestin-only emergency contraceptive are better tolerated than combination pills
- b. Side effects: Myocardial infarction
- c. Side effects: Weight gain
- d. Contraindicated in renal diseases
- e. Contraindicated in liver disease

ans: d

lec 7

1) Drug of choice for bacterial vaginosis is?

- a. Metronidazole
- b. Erythromycin
- c. Tetracycline
- d. Nystatin
- e. Profen

ans : a

2) Concerning STDs, BENZATHINE PENCILLIN G is the treatment of the following disease?

- a. Syphilis.
- b. Trichomoniasis.
- c. Hepatitis B.
- d. Pubic lice.
- e. Gonorrhea

ans: a

3) Concerning STDs, genital herpes can be treated by the following drug?

- a. Azithromycin.
- b. Acyclovir.
- c. Metronidazole.
- d. Benzathine pencilin G.
- e. Salicylic acid.

ans: b

4)is preventable through vaccination?

- a. syphilis
- b. gonorrhea
- c. Herpes simplex
- d. chlamydia
- e. HPV

ans: e

أيام ضغط ومشقة, الامتحانات مليانة أجور خفية!

المادة المستعمية اللي شدتك لقيام الليل بعد انقطاع شهور, الأذكار اللي رددتها وأنت في مواصلات الصبح بعد ما نسيت أغلبها, الصدقات اللي بتطلعها بنية تيسير الحال, زميلك اللي شرحت له حاجة قبل الامتحان بخمس دقائق, ده غير أجر طلب العلم قبلاً.

على الرغم من استئغال أيام الامتحانات بما فيها, لكنها بتوصلنا لنقطة صعب نوصلها وإحنا في أيام الرخاء.

أحسنوا استغلال الأيام دي, وقابلوا البلاء بصدرٍ رحب, لعلها تكون حبل من الله لوصول المقطوع
