

# Association fibers

	<b>Begin</b>	<b>Reach</b>	<b>End</b>	<b>Connect</b>
<b>uncinate fasciculus</b>	begins at the orbital gyri of frontal lobe	arches over the stem of lateral sulcus	ant. part of temporal lobe	orbital gyri of frontal lobe & motor speech areas with the cortex of ant. part of temporal lobe
<b>superior longitudinal</b>	frontal lobe	run backward to reach the occipital lobe	curve to enter temporal lobe	frontal, occipital & temporal cortical areas
<b>inferior longitudinal</b>	occipital lobe		temporal lobe	
<b>cingulum</b>	ant. perforated substance	cingulate gyrus ↓ isthmus ↓ parahippocampal gyrus	Uncus
